

Eligible Professionals

How can the West Virginia Health Information Network (WVHIN) assist you in meeting Meaningful Use requirements?

The charts below define Stage 1 & Stage 2 Meaningful Use objectives associated with the electronic exchange of patient health information and describe how WVHIN services can assist eligible providers (EPs) in meeting Meaningful Use objectives. *Table A* addresses Stage 1 requirements and *Table B* addresses Stage 2 requirements.

Table A. Stage 1 Meaningful Use Requirements Associated with the Electronic Exchange of Information

Stage 1 Objective	Core or Menu Objective?	Stage 1 Measure	WVHIN Service(s) that Meets Objective
Provide patients with an electronic copy of their health information (including diagnostic test results, problem list, medication list, medication allergies) upon request	Core	More than 50% of all patients of the EP who request an electronic copy of their health information are provided it within 3 business days	Options: 1. Use WVDirect to send a Continuity of Care Document (CCD) to your patient's standards compliant Personal Health Record (PHR) 2. Use WVHIN Patient Portal (Future service offering)
Provide patients with timely electronic access to their health information (including lab results, problem list, medication list, medication allergies) within 4 business days of the information being available to the EP	Core. However, note this objective is eliminated from Stage 1 in 2014.	More than 10% of all unique patients seen by the EP are provided timely (available to the patient within four business days of being updated in the certified EHR technology) electronic access to their health information subject to the EP's discretion to	Options: 1. Use WVDirect to send a Continuity of Care Document (CCD) to your patient's standards compliant Personal Health Record (PHR) 2. Use WVHIN Patient Portal (Future service offering)

Stage 1 Objective	Core or Menu Objective?	Stage 1 Measure	WVHIN Service(s) that Meets Objective
		withhold certain information	
The EP who transitions their patient to another setting of care or provider of care or refers their patient to another provider of care should provide summary of care record for each transition of care or referral	Core	The EP who transitions or refers their patient to another setting of care or provider of care provides a summary of care record for more than 50% of transitions of care and referrals	Options: 1. Use WVDirect to send a Continuity of Care Document (CCD) to a participating provider 2. Submit patient data to WVHIN's Health Information Exchange (HIE) via standards-based connection
Capability to submit electronic data to immunization registries or Immunization Information Systems and actual submission except where prohibited and in accordance with applicable law and practice	Core	Perform at least one test of certified EHR technology's capacity to submit electronic data to immunization registries and follow up submission if the test is successful (unless none of the immunization registries to which the EP submits such information have the capacity to receive the information electronically)	Use WVDirect to submit immunization data to the Bureau for Public Health's WVDirect account
Capability to submit electronic syndromic surveillance data to public health agencies and actual submission except where prohibited and in accordance with applicable law and practice	Menu	Perform at least one test of certified EHR technology's capacity to provide electronic syndromic surveillance data to public health agencies and follow-up submission if the test is successful (unless none of the public health agencies to which an EP, eligible hospital or CAH submits such information have the capacity to receive the information	Use WVHIN Health Information Exchange (HIE) to electronically submit data to BioSense 2.0

		electronically)	

Table B. Stage 2 Meaningful Use Requirements Associated with the Electronic Exchange of Information

Stage 2 Objective	Core or Menu Objective?	Stage 2 Measure	WVHIN Service that Meets Objective
Provide patients the ability to view online, download and transmit their health information within four business days of the information being available to the EP	Core	<p>i. More than 50% of all unique patients seen by the EP during the EHR reporting period are provided timely (available to the patient within 4 business days after the information is available to the EP) online access to their health information</p> <p>ii. More than 5% of all unique patients seen by the EP during the EHR reporting period (or their authorized representatives) view, download, or transmit to a third party their health information</p>	<p>Options:</p> <ol style="list-style-type: none"> 1. Use WVDirect to send a Continuity of Care Document (CCD) to your patient's standards compliant Personal Health Record (PHR) 2. Use WVHIN Patient Portal (Future service offering)
The EP who transitions their patient to another setting of care or provider of care or refers their patient to another provider of care should provide summary of care record for each transition of care or referral	Core	<ol style="list-style-type: none"> 1. The EP who transitions or refers their patient to another setting of care or provider of care provides a summary of care record for more than 50% of transitions of care and referrals 2. The EP who transitions or refers their patient to another setting of care or provider of care provides a summary 	<p>Options:</p> <ol style="list-style-type: none"> 1. Use WVDirect to send a Continuity of Care Document (CCD) to a participating provider 2. Submit patient data to WVHIN's Health Information Exchange (HIE) via standards-based connection

Stage 2 Objective	Core or Menu Objective?	Stage 2 Measure	WVHIN Service that Meets Objective
		<p>of care record either a) electronically transmitted to a recipient using CEHRT or b) where the recipient receives the summary of care record via exchange facilitated by an organization that is a NwHIN Exchange participant or is validated through an ONC-established governance mechanism to facilitate exchange for 10% of transitions and referrals 3. The EP who transitions or refers their patient to another setting of care or provider of care must either a) conduct one or more successful electronic exchanges of a summary of care record with a recipient using technology that was designed by a different EHR developer than the sender's, or b) conduct one or more successful tests with the CMS-designated test EHR during the EHR</p>	
<p>Capability to submit electronic data to immunization registries or Immunization Information Systems and actual submission except where prohibited and in accordance with</p>	<p>Core</p>	<p>Successful ongoing submission of electronic immunization data from Certified EHR Technology to an immunization registry or immunization information system for</p>	<p>Use WVHIN Health Information Exchange (HIE) to electronically submit data to the Bureau for Public Health's immunization registry</p>

Stage 2 Objective	Core or Menu Objective?	Stage 2 Measure	WVHIN Service that Meets Objective
applicable law and practice		the entire EHR reporting period	
Use secure electronic messaging to communicate with patient on relevant health information	Core	A secure message was sent using the electronic messaging function of Certified EHR Technology by more than 5% of unique patients seen during the EHR reporting period	Use WVDirect to send a Continuity of Care Document (CCD) to your patient's standards compliant Personal Health Record (PHR)
Capability to submit electronic syndromic surveillance data to public health agencies and actual submission except where prohibited and in accordance with applicable law and practice	Menu	Successful ongoing submission of electronic syndromic surveillance data from Certified EHR Technology to a public health agency for the entire EHR reporting period	Use WVHIN Health Information Exchange (HIE) to electronically submit data to BioSense 2.0
Capability to identify and report cancer cases to a State cancer registry, except where prohibited, and in accordance with applicable law and practice	Menu	Successful ongoing submission of cancer case information from Certified EHR Technology to a cancer registry for the entire EHR reporting period	Future service offering
Capability to identify and report specific cases to a specialized registry (other than a cancer registry), except where prohibited, and in accordance with applicable law and practice	Menu	Successful ongoing submission of specific case information from Certified EHR Technology to a specialized registry for the entire EHR reporting period	Future service offering
