HIELights

Helpful tips from the WVHIN

Data Reporting Options Available

The WVHIN is able to route data files at your request via SFTP:

- **Vital Signs**

Generated on the 2nd Monday of the month, including values such as BP, HR, BMI, RR, and more!

- **HL7 Lab files**

LOINC-code based files that are generated on the 5th of each month.

- **Immunizations**

Includes vaccines reported to WVSIIS; generated on the 2nd Monday of each month.
